

Speed control EC 10

Potentiometer 10kOhm for speed controlling

The Controller designed for direct control or nominal value present of EC-fans with potentiometer input or any application where a DC control signal required. For the manual control of speed and air flow of electrical fans with 0-10V output. Additionally equipped with an enabling switch. The jet proof IP 54 enclosure is achieved with the included surface mounting case. Flush-mounting a splash proof IP 44 enclosure also suitable for highly demand environments as bathrooms etc).
